TRANSFER OF ASSETS

- 9. Penalty periods transfer by a spouse that results in a penalty period for the individual--
 - (a) The agency apportions any existing penalty period between the spouses using the method outlined below, provided the spouse is eligible for Medicaid. A penalty can be assessed against the spouse, and some portion of the penalty against the individual remains.

The penalty period is apportioned equally between the eligible individual and the eligible spouse.

- (b) If one spouse is no longer subject to a penalty, the remaining penalty period must be served by the remaining spouse.
- 10. Treatment of income as an asset—
 When income has been transferred as a lump sum, the agency will calculate the penalty period on the lump sum value.

____ The agency will impose partial month penalty periods.

When a stream of income or the right to a stream of income has been transferred, the agency will impose a penalty period for each income payment.

- ____ For transfers of individual income payments, the agency will impose partial month penalty periods.
- X For transfers of the right to an income stream, the agency will use the actuarial value of all payments transferred.
- The agency uses an alternate method to calculate penalty periods, as described below:
